

CS2420-002 Team 1

Professor Sharp

Sprint One

Table of Contents

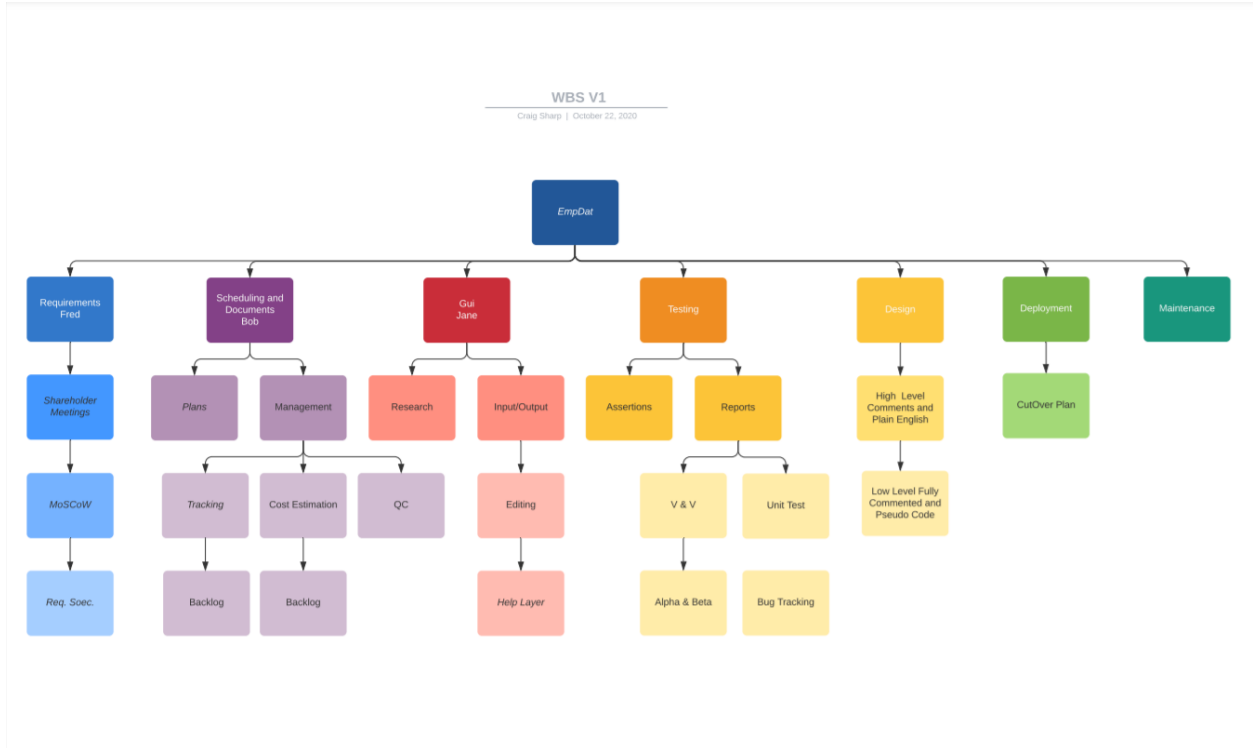

Title	1
Table of Contents	2
Team Roles	3
Diagram Templates	4 - 5
Set-up Information	6

Team Roles:

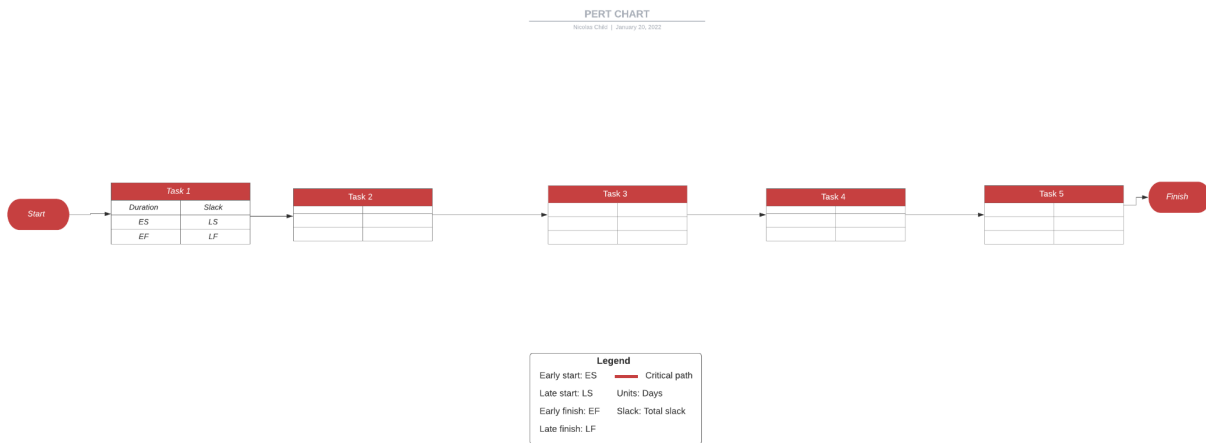

- Manger / Coder - Nick
- Schedule Manager/ Coder - Nathaniel
- Research / Scribe / Q&A Manager - Jonathon
- GUI / Diagrams - Wyatt and Don
- Diagrams / Coder - Jordan

Diagrams Templates:

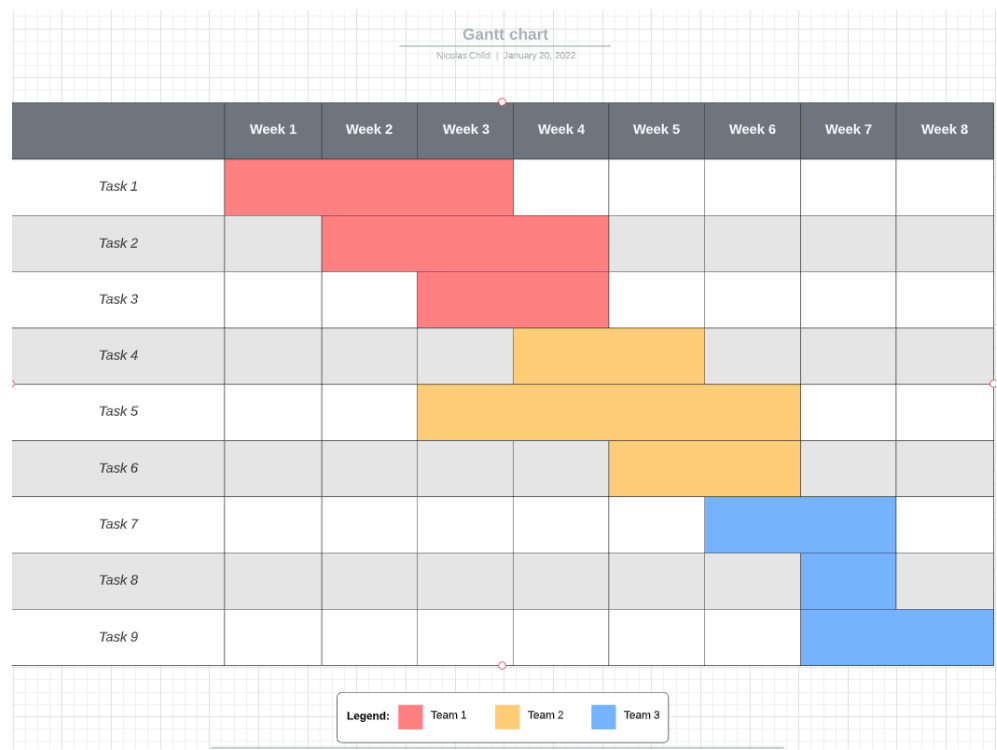

1. Work Breakdown Structure(WBS)

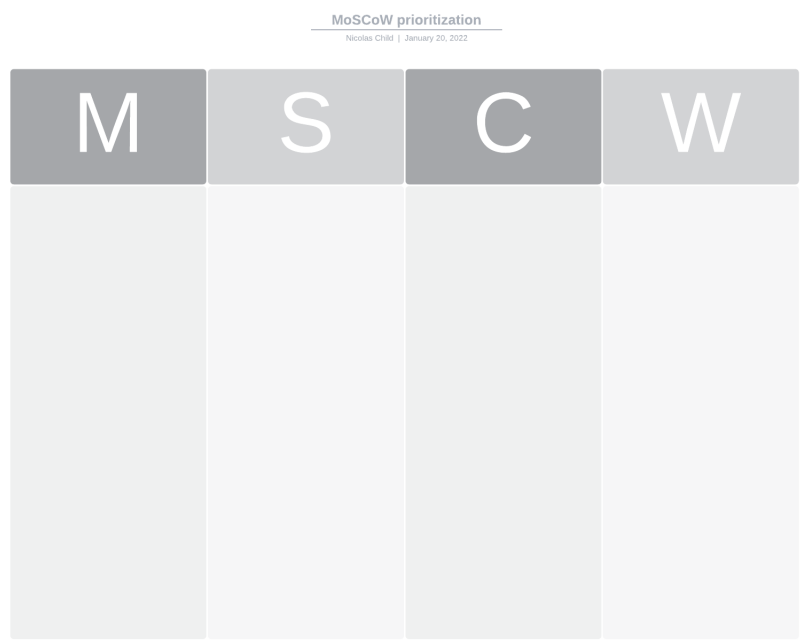

2. Pert Chart

3. Gantt Chart

4. MoSCoW Chart

Set-up Information:

Team communication - The team is using Discord to discuss daily operations. The team also established voice communication via Microsoft Teams and made a channel available to the shareholder

File storage & Charts - The team is using Google Drive to store the SPR documents and a spreadsheet to record man-hours. For development, the team is using a GitHub repository. The team is also using Lucid Charts to collaborate on the development of charts for specific sprints. The team has all charts available and ready for use.

Agile alternatives - The team discussed in depth using an agile method to complement the SCRUM method which will be in use. The team discussed the pros and cons of both the *crystal clear* method and the *lean* method. The team decided that ultimately the crystal clear method had a better management system which would lead to less confusion

Meeting with the shareholder - The team met with the shareholder and discussed the current stage of development and progress of the team on 1/20 at 4:00 PM

Github Setup - Public repository made for anyone with the link. Here it is: https://github.com/nicolaschild/T1_CS2420_002-Spr/
